Lang® Universal Clamshell™ MODEL □9K-UCCSE12

DESCRIPTION

The Lang Universal Clamshell top press is the first and only clamshell press accessory that fits a wide range of griddle makes and models—so, operators can get all the speed and versatility of two-sided cooking without having to buy a new griddle. The Universal Clamshell is designed for quick and consistent cooking of a variety of menu items. Its electronic temperature control allows for easy and precise temperature adjustment, while its self-leveling feature ensures uniform two-sided cooking in combination with the griddle surface.

FEATURES

- Double-sided cooking with griddle cuts cook time in half
- Single hand lifting operation with integrated hold-open design at any position.
- Self-levelling Clamshell accommodates large items as well as large quantities of smaller items, and all with consistent contact and heating
- 11-inch (279 mm) by 21.5-inch (546 mm) contact surface provides 1.64 square feet (1524 cm²) of cooking area
- Supplied with one [1] easy-to-install non-stick sheet
- Each Clamshell utilizes an individual control box for independent electronic temperature control

SPECIFICATIONS

- The Lang Universal Clamshell top press is built in the U.S.A. with a corrosion-resistant stainless steel body.
- Each Clamshell has its own independent control.
- The self-leveling function will keep the Clamshell level with the griddle and provide consistent contact heating for a range of product thicknesses.
- The power for each Clamshell will be single phase and rated at 4.2 kW.
- Supply voltage can be either 208 or 240 volts depending on the model.
- The Clamshell will operate up to 550°F (288° C).
- Units will come ready to hard-wire to a single power box.
- If installing multiple units, each Clamshell will require one [1] connection.
- Clamshells are compatible with front or side trough style griddles.
- Each Clamshell utilizes an easy to see illuminated on/off switch and separate indicator light for identifying when heating.
- Clamshells may be used with any existing bases or stands.

OPTIONS & ACCESSORIES

- Replacement non-stick sheets [package of 10]
- Contact sales for additional griddle fit-kits.

WARRANTY

These units come with a one [1] year warranty for parts and labor.

Lang® Universal Clamshell™

INSTALLATION REQUIREMENTS:

- The Lang Universal Clamshell top press adapts to fit griddles manufactured by Lang, Star Ultra-Max, Imperial, Southbend, Vulcan, AccuTemp, and Atosa. There is no need to modify the existing griddle. Each Clamshell comes as one complete unit with minimal assembly that only involves affixing the appropriate bracket matching the existing griddle. From there, simply hang the Clamshell on the griddle's rear backsplash in the location desired, install the screws in the location identified (a standard impact screwdriver will do), and make the electrical connections.
- Installation by a certified technician is recommended.
